

INTRODUCING

GoGuardian Beacon.

Don't let your students fall under the radar. Suicide is the second leading cause of death for youth ages 10-24. GoGuardian Beacon is here to help.

Beacon is a suicide and self-harm prevention tool designed to help you proactively identify your at-risk students so that you can quickly get them the assistance they need.

Find students in need

Proactive monitoring will help you identify at-risk students and uncover those who may be silently suffering as well.

Facilitate quick action

Empower the right people at your school, with the right information, in the right way and get students help as fast as possible.

Supports your suicide prevention program

Beacon was designed from the ground up with and for school mental health professionals to enhance their workflow rather than slow it down.

Kids are at increasing risk, schools are under pressure & solutions today are limited.

1 in 5 teens have seriously considered suicide.*

Suicide is the second leading cause of death for youth ages 10-24.*

3,470

8.6% of 9-12th grade students have attempted suicide one or more times in the last 12 months.*
