

New Features

FOR THE 'NEW NORMAL' AVAILABLE NOW

TOUCH FREE SIGN-IN

- Visitors and contractors can now sign-in without touching the screen
- Improves safety and reduces human-to-human transmission of germs
- Supports ad-hoc/unknown visitors and contractors, plus pre-booked visitors
- Quick and easy to use

TEMPERATURE SCREENING

- Screen visitors for elevated body temperature
- Contact-free screening with state of the art IR temperature sensor
- Simple and speedy, it takes less than 2 seconds to check temperature
- Deny access for anyone with an elevated body temperature
- Available as stand-alone or integrate with EntrySign and/or access control

SMART SANITIZATION

- Encourage good hygiene and clean hands
- Reduces risk of human-to-human transmission
- Require visitors/contractors to sanitize in order to complete the sign-in process
- Helps to maintain a safe and healthy school/workplace

All-in-one Touchscreen

A compact, stylish 15.6" sign-in screen welcomes visitors and displays clear and simple sign-in instructions.

Built-In Camera

Captures photographs of visitors and also reads QR codes for quick visitor sign-in/out.

Mounting Solutions

A range of stylish desk and wall mounting options complement any reception area.

NEW!

Temperature Screening

Contact-free body temperature screening with state of the art IR temperature sensor. Optional.

NEW!

Smart Connected Sanitizer

Require visitors and contractors to sanitise their hands in order to complete the sign-in process. Optional.

NEW!

Touch Free Sign-in

Visitors and contractors can now sign-in without needing to touch the EntrySign screen. Optional.

Biometrics

Offers quick and convenient sign in/out using fingers/thumbs. Optional.

Badge Printer

Quickly produces clear and durable visitor badges. Thermal printing technology requires no ink to ensure low running costs.

RFID Reader

Universal, multi-format contactless card/fob reader offers simple and fast sign in/out. Compatible with most card/fob technologies.

Dedicated QR Code Reader

Offers rapid QR code acquisition, ideal for high traffic environments and event sign-in.
